

# Model 4PX

4PX is intended for washing vehicle fleets. Thanks to its optimum performance, it can wash a 12 metre long vehicle in less than 2 minutes, including overlapping brush wash on the front and back.

This 'static machine' takes up very little space (from 4 metres long), and does not require rails. Its drive-through wash system allows vehicles of all lengths to be washed.

A simple stop-light positioning system ensures communication with the driver: the right stop position is always indicated for an effective overlapping scrub on the vehicle front and back.

Several wash programs can be set up for vehicles with panoramic view mirrors, and a combination of additional vertical brushes with a tilting horizontal brush is possible, which makes this model one of the most complete and productive systems for large fleets.

## Model 4PX1200

	No. brushes	Vehicle pass metres		Wash height in m.	Bay dimensions in m.			Output Vehicles/hour
		Height*	Width		Height	Width		
2 mobile vertical brushes	2	4.5	2.9	4.5	5.30	5.84	4	30
2 additional vertical brushes, 3.5 m.	4	4.5	2.9	4.5	5.74	5.84	6	30
Horizontal brush, 4.5 m.	3	4.5	2.9	4.5 max. / 3.8 min.	5.74	5.84	6	30
2 additional vertical brushes, 3.5 m + 1 horiz. 4.5 m.	5	4.5	2.9	4.5 max. / 3.8 min.	5.74	5.84	6	30
2 additional vertical brushes, 3 m.	4	4.5	2.9	4.5	5.74	5.84	6	30
Horizontal brush, 3.6 m.	3	3.6	2.9	3.6 max. / 2.9 min.	5.74	5.84	6	30
2 additional vertical brushes, 3 m + 1 horiz. 3.6 m.	5	3.6	2.9	3.6 max. / 2.9 min.	5.74	5.84	6	30

\*With horizontal brush in uppermost position: wash height, 4.50 m max. and 3.8 m min. To be combined with 3.5 m high tilting brushes. With horizontal brush in lowest position: wash height, 3.60 m max. and 2.9 m min. To be combined with tilting brushes.

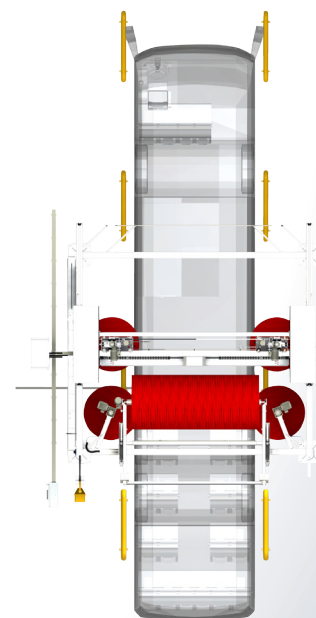

### POSSIBLE COMBINATIONS:

- ▶ 2 mobile vertical brushes
- ▶ 2 mobile vertical brushes + 2 additional side brushes + horizontal tilting brush
- ▶ 2 mobile vertical brushes + 2 additional side brushes
- ▶ 2 mobile vertical brushes + 2 additional side brushes + horizontal tilting brush

Note: The mobile brushes overlap on the front and back of the vehicle.

### OPTIONS:

- ▶ Final rinsing arch
- ▶ Underchassis wash: 15 kW/20 bar or 30 kW/40 bar
- ▶ Anti-splash screens
