YEARS
OF EXPERIENCE

SULTOF sp. z o.o. is a Polish manufacturer of car washes for all types of vehicles as well as a wide range of self-service equipment for petrol stations and car washes.

We are the market leader in car wash sector in Poland.

Our devices are among one of the best on market. The combination of proven technologies and innovative solutions resulted in products of effective operation and exceptional durability.

We are constantly improving the usability of our devices, listening to the users expectations and comments.

All our devices are made of high-quality polished stainless steel

Our clients are both leading oil companies, as well as private owners of petrol stations and car washes, transport companies, etc.

So far, we have installed over 6.000 self-service units.

Our strengths are:

- high quality and affordable price
- durability, reliability and easy-to-use
- high operating parameters
- proven technologies and technical innovations
- customization of devices – stickers, laser cutting of inscriptions, sandblasting, lighting, advertising
- modern and timeless design
- housing made of high-quality polished stainless steel

TYRE INFLATORS

MAIN FEATURES

- Stable and durable stainless steel housing – resistant to external factors
- Thermal insulation and thermostat-controlled heating system – ability to work at < 0°C
- Quiet working ensured by acoustic insulation
- Simple and intuitive operation
- Safety STOP button
- Optional payment system: electronic coin acceptor (several types of coins or tokens), payment card terminal
- Customization: stickers, sandblasting of inscriptions, advertising, other
- 10 m spiral hose with a dedicated tip

TECHNICAL FEATURES

Model	Code	Voltage	Power incl. Heating / w/out	Max. air pressure	Max. air flow	Dimensions: W x L x H (cm)
TYRE INFLATOR DIGITAL 24L	23024DPO	230 V/50 Hz	1200 W / 1400 W	8 bar	120 l / min	60x50x108
TYRE INFLATOR ANALOG 24L	23024ADO	230 V/50 Hz	1200 W / 1400 W	8 bar	120 l / min	60x50x108
TYRE INFLATOR BUS DIGITAL 100L	400100DPO	400 V/50 Hz	2300 W / 2500 W	8,5 bar	280 l / min	126x50x108
TYRE INFLATOR TRUCK/BUS ANALOG 100L	400100ADO	400 V/50 Hz	2300 W / 2500 W	10 bar	280 l / min	126x50x108

TYRE INFLATOR DIGITAL 24L

TYRE INFLATOR DIGITAL 100L BUS

- Durable oil compressor with 24 l or 100 l tank (BUS)
- Digital pressure gauge with backlit LCD display
- Automatic inflation with pressure setting with +/- buttons
- Sound signal
- Quick inflation of an empty tyre

TYRE INFLATOR ANALOG 24L

TYRE INFLATOR ANALOG TRUCK/BUS 100L

- Designed for inflating truck wheels (TRUCK/BUS)
- Durable oil compressor with 3-phase motor and 100 l tank
- Analogue pressure gauge
- Manual inflation with +/- buttons

VACUUM CLEANERS

MAIN FEATURES

- Stable and durable stainless steel housing – resistant to external factors
- Quiet operation
- Simple and intuitive working
- Large 35 l waste container made of stainless steel – easy to empty, no need to use bags
- Reusable filter made of thick non-woven fabric for long-lasting and reliable operation
- STOP safety button
- Reinforced 5 m hose with dedicated damage resistant nozzle
- Automatic hose pull-up
- Reinforced, safe and durable locks
- Operating temperature range from -25°C to +40°C
- Payment system options: electronic coin acceptor (several types of coins or tokens), payment card terminal
- Customization: stickers, sandblasting inscriptions, advertising, lighting, other
- TURBINE designed for intensive and long-lasting work (230 V or 400 V) or brush motor 230 V
- Ability of setting the single cycle working time (from 0 to 15 minutes)
- Unerasable counter of completed cycles
- Display of working time (SMART version)

VACUUM CLEANER COMBO

- Tyre inflator and vacuum cleaner in one housing
- Combines the functionality of individual devices
- Needs less space on installation site

TECHNICAL FEATURES

Model	Code	Voltage	Power	Vacuum	Flow rate	Max. air pressure	Max. air flow	Dimensions: W x L x H (cm)
VACUUM CLEANER COMBO 230V	4011	230 V/50 Hz	2x1200 W + 1400 W	2300 mm H ₂ O	310 m ³ /h	8 bar	120 l/min	118 x 50 x 108 pole: 200
VACUUM CLEANER COMBO 230V TURBINE	4111	230 V/50 Hz	2200 W + 1400 W	2100 mm H ₂ O	350 m ³ /h	8 bar	120 l/min	118 x 50 x 118 pole: 200

SINGLE VACUUM CLEANER MONO

MONO SMART

- Column with automatic hose pull-up system
- Display of working time
- Reinforced coin box with lock
- Electronic coin acceptor or payment card terminal

MONO STANDARD

- Pole with automatic hose pull-up system
- Electronic coin acceptor

DOUBLE VACUUM CLEANER DUO

DUO STANDARD

DUO SMART

- Simultaneous operation of two vacuuming stations
- Column with automatic hose pull-up system
- Display of working time (SMART version)
- Reinforced coin box with lock
- Electronic coin acceptor or payment card terminal

TECHNICAL FEATURES

Model	Code	Voltage	Power	Vacuum	Flow rate	Dimensions: W x L x H (cm)	Hose pull-up pole height (cm)
VACUUM CLEANER MONO 230V	12301e	230 V/50Hz	2x1200 W	2300 mm H ₂ O	310 m ³ /h	60x50x108	200
VACUUM CLEANER MONO 230V TURBINE	12311e	230 V/50Hz	2200 W	2100 mm H ₂ O	350 m ³ /h	60x50x118	200
VACUUM CLEANER MONO 400V TURBINE	14011e	400 V/50Hz	2200 W	2100 mm H ₂ O	350 m ³ /h	60x50x118	200
VACUUM CLEANER DUO 230V	22301e	230 V/50Hz	4x1200 W	2300 mm H ₂ O	310 m ³ /h	118x50x108	200
VACUUM CLEANER DUO 230V TURBINE	22311e	230 V/50Hz	2x2200 W	2100 mm H ₂ O	350 m ³ /h	118x50x118	200
VACUUM CLEANER DUO 400V TURBINE	24011e	400 V/50Hz	2x2200 W	2100 mm H ₂ O	350 m ³ /h	118x50x118	200

DRY FOAM

CAR SEAT WASHER

- Cleaning with **DRY FOAM** applied with a special brush
- Suction cup for dirt extraction
- No water connection and no sewage drain required
- Separate tanks for detergent and dirt
- Injection/Extraction selector switch
- Safe cleaning of heated seats
- Low moisture level – short drying time
- High cleaning efficiency
- Payment system options:
electronic coin acceptor (several types of coins or tokens),
payment card terminal

TECHNICAL FEATURES

Code	Voltage	Power: vacuum, inflator, pump	Detergent tank capacity	Dirt collecting tank capacity	Vacuum	Flow rate	Detergent consumption grams / seat	Injection/extraction hose length	Dimensions: W x L x H (cm)
4230PTe	230 V/50 Hz	1000 W 350 W, 70 W	14 l	14 l	2200 mm H ₂ O	50 l / min	30-40	2 x 5 m	80 x 60 x 120

OZONE MACHINE

VEHICLE INTERIOR DISINFECTION

- Elimination of pathogenic microorganisms by ozone treatment
- Elimination of odours
- High process efficiency in compliance with standards
- Payment system options: electronic coin acceptor (several types of coins or tokens), payment card terminal
- Special nozzle shape for ozone injection

TECHNICAL FEATURES

Code	Voltage	Power	Ozone output	Hose length	Dimensions: W x L x H (cm)
4030	230V/50Hz	300 W	5 g/h	2 m	60 x 50 x 125

CAR / MOTORBIKE DRYER

- Stable, high pole made of stainless steel
- Balancer to regulate the hose lift
- 270° swivel arm providing free access to the entire surface of the vehicle
- Two high capacity air turbines
- The unique design of the nozzle ensures an excellent drying result by providing a strong concentrated air stream
- TURBO function doubles the drying power
- Comfortable operation with a button on the nozzle holder
- Sponges to protect surfaces from scratches
- Simple and intuitive operation of the device
- Payment system options: electronic coin acceptor (several types of coins or tokens), payment card terminal

TECHNICAL FEATURES

Code	Voltage	Power	Air flow	Hose length	Dimensions: W x L x H (cm)	Swivel arm pole height (cm)
3230SS	230V/50 Hz	2x1500 W	310 m³/h	5 m	60 x 50 x 108	320

CAR MAT BEATER

- Robust stainless steel construction
- Hot-dip galvanized grate
- Waste collection drawer secured with a lock
- Dimensions cm (W x L x H): 50 x 49 x 100

MATS HOLDERS

- Single and rack-mounted
- Standing rack with 4 holders, floor mounted – 200 cm wide x 110 cm high
- Hanging rack with 4 holders – 300 cm wide x 80 cm high
- Other rack dimensions on request

OTHER ACCESSORIES:
helmet hanger, bicycle holder,
base for the motorbike

The **SULTOF** company established in 1991 specializes in manufacturing, sale and installation of washes for all types of vehicles.

For many years now, **SULTOF** has been one of the leaders of the car-washing industry in Poland.

The company also focuses strongly on export and constantly increases the number of different types of wash systems and units sold abroad.

Our individual approach to customers needs results in great diversity of our Clients: from small local business up to large transport or construction companies, as well as public transport companies (buses, trams, metro and railways).

The SULTOF offer includes:

- jet washes
- roll-overs and washing tunnels
- bus washes
- tank washes
- truck washes
- tram washes
- train washes
- metro washes
- under-chassis and wheel washes
- untypical solutions designed to work in particularly difficult conditions

and self-service equipment:

- vacuum cleaners, air compressors, a.s.o.

SULTOF has its own developed maintenance network.

At every stage of the investment, we provide professional technical advice, consult projects and supervise their implementation.

Also customers from abroad are provided with advice and technical support delivered by **SULTOF** local distributors.
